

Retraction Note: In-Stent Thrombosis in the Middle Cerebral Artery (MCA): A Case Report

Xian-jun Zhang¹, Hai-feng Li^{2,*}, Yong Zhang¹, Hong Li¹, Zong-chao Liu¹

¹Department of Neurology, Affiliated Hospital of Qingdao University, Qingdao, China

²Department of Neurology, Qilu Hospital of Shandong University, Jinan, China

Reason for retraction:

*This notice is issued by the Editor-in-Chief on behalf of the **Journal of Neurological Research and Therapy (Open Access Pub)**.*

Citation of retracted article:

Xian-jun Zhang; Hai-feng Li; Yong Zhang; Hong Li; Zong-chao Liu (2015). *In-Stent Thrombosis in the Middle Cerebral Artery (MCA): A Case Report. Journal of Neurological Research and Therapy 1(1):11–17. DOI: 10.14302/issn.2470-5020.jnrt-14-520. Published: 19 May 2015.*

Reason for retraction:

Following an editorial investigation, we confirmed **redundant (duplicate) publication**. A substantially similar article by the same authors was **previously published** on **1 December 2014** in *Austin Journal of Clinical Neurology (Article ID 1016): In-Stent Thrombosis in the Middle Cerebral Artery (MCA): A Case Report. The earlier publication constitutes the version of record. The later OAP publication did not disclose prior publication or meet the criteria for acceptable secondary publication.*

Process:

The investigation followed COPE guidance for handling redundant publication. The corresponding author(s) and the editor of the other journal were notified and given the opportunity to respond prior to this decision. The Editor-in-Chief determined that retraction is required to correct the scholarly record.

Record status:

The retracted article remains available to maintain the scholarly record and is clearly marked **RETRACTED** on the HTML and PDF. This notice links to the article, and the article links to this notice. The article's open-license terms remain unchanged.

Approvals:

Approved by the Editor-in-Chief of *Journal of Neurological Research and Therapy*.

Date of retraction: 20 November 2015.
